

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

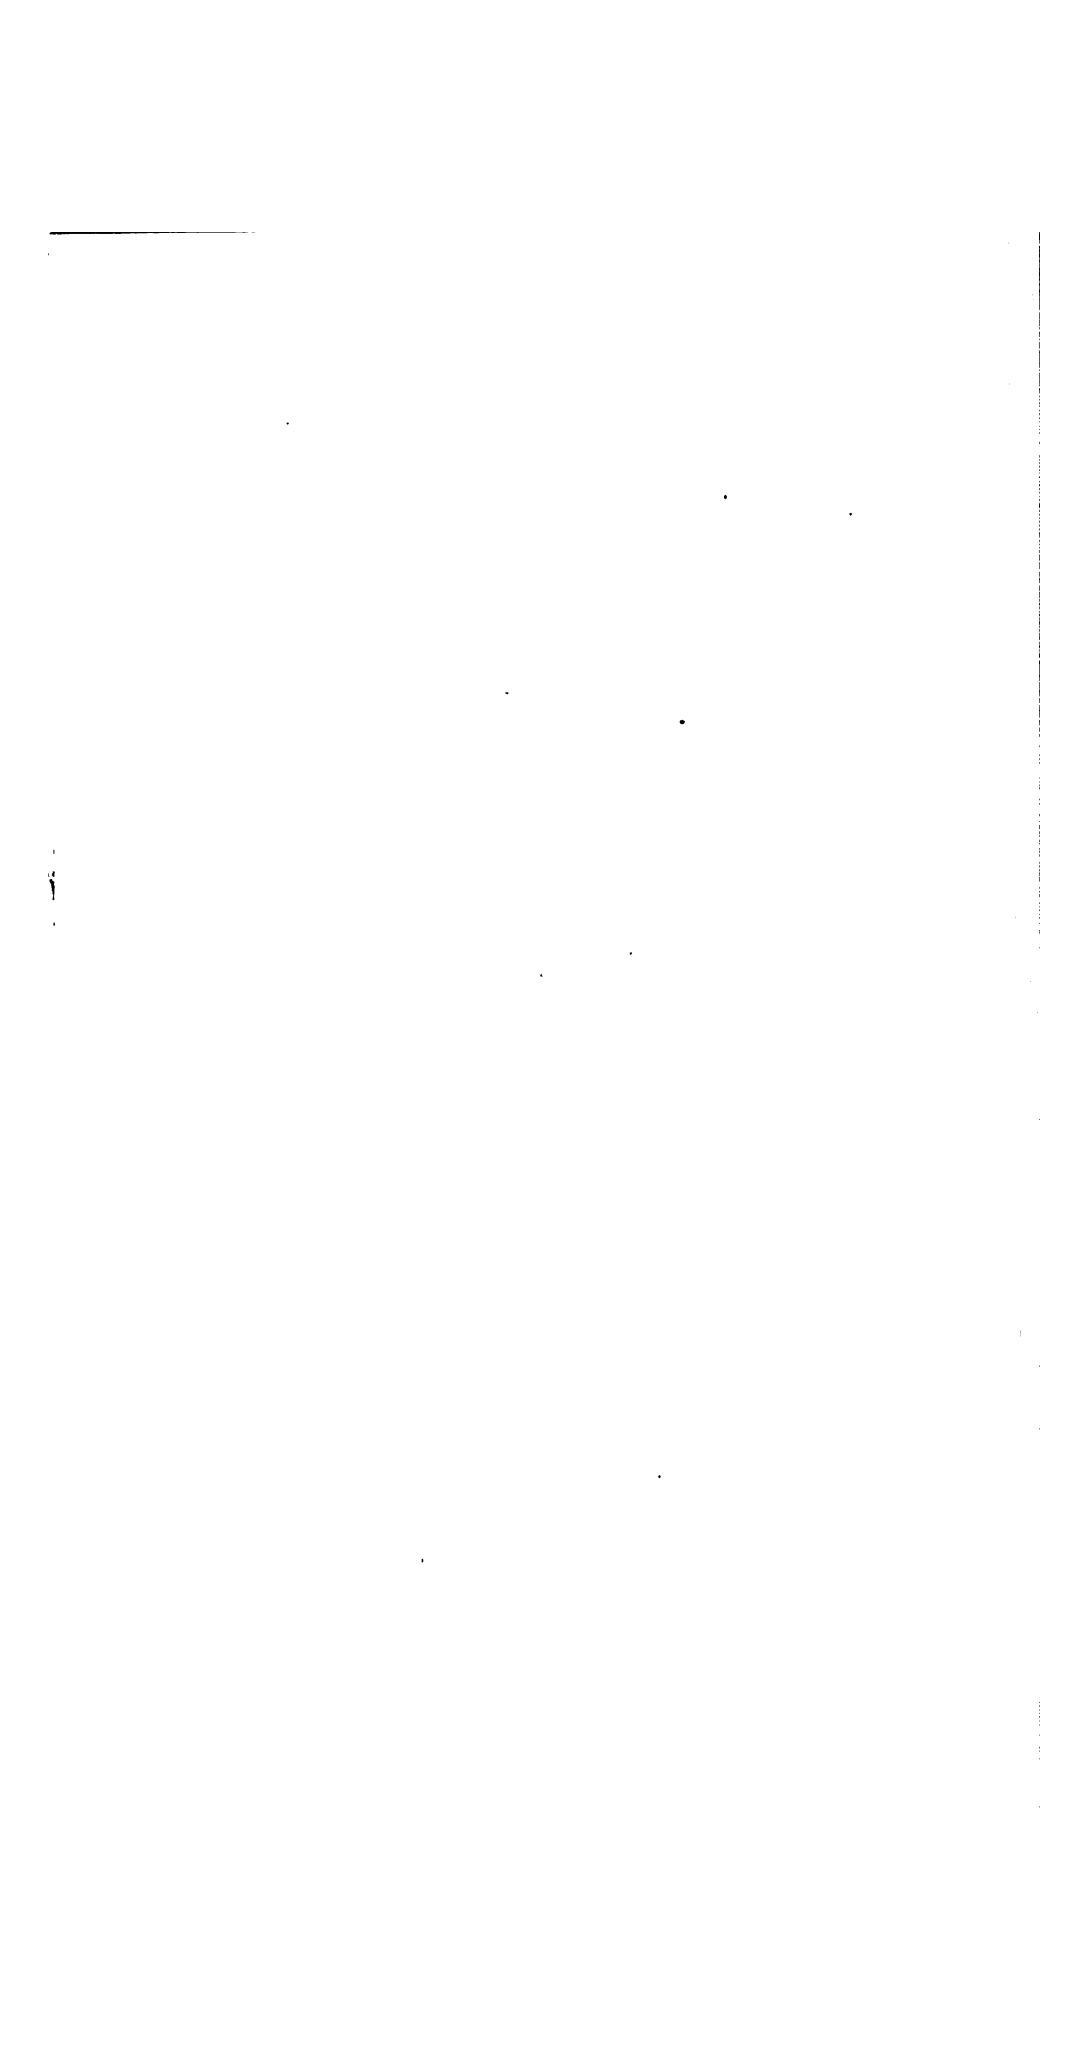

About Google Book Search

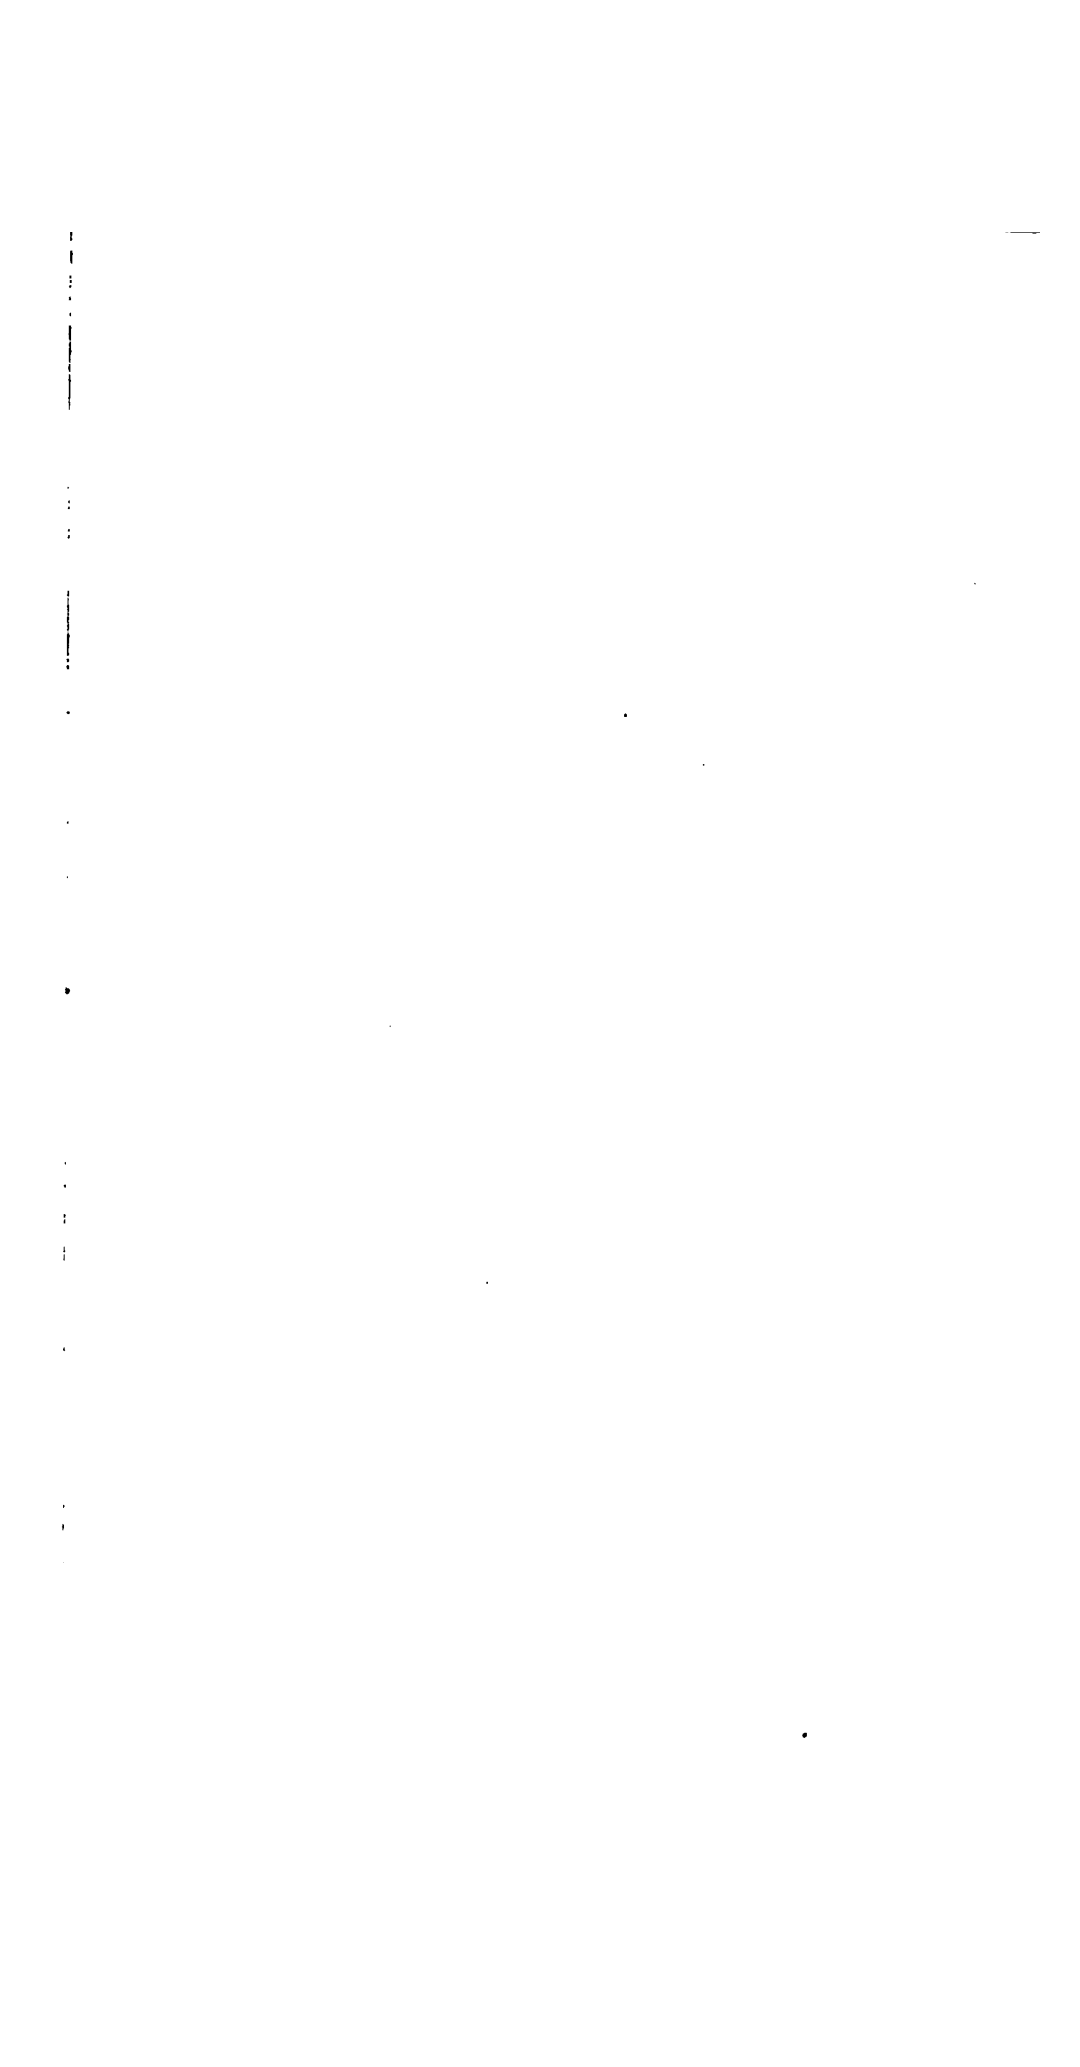

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

Secretary of State.**

STATISTICAL REPORT.

INDIANA BUREAU OF STATISTICS,
INDIANAPOLIS, IND., October 31, 1883. }

To His Excellency, ALBERT G. PORTER,

Governor of Indiana:

SIR—In presenting the Fifth Annual Report of the Bureau of Statistics, for 1883, and before entering upon a discussion of the several subjects embraced in it, I desire to submit a few remarks appertaining to the duties of the office, and relating more especially to the collection of statistical information contemplated by the statute.

The time has passed when, from a want of knowledge, statistics were considered useless, or superfluous. One by one the several States of the Union, appreciating the value and importance of statistics, established separate bureaus for the collection and compilation of information touching upon all the diverse subjects of public life. The Indiana Bureau of Statistics, although yet in its infancy, has given ample proof of its efficiency by its honest endeavors to obtain reliable and accurate statistical information. The prejudices it may have had to encounter are giving way to a better understanding and appreciation of its services for the common benefit, on the part of those whose duty it is to make reports to this department when called upon to do so.

But although from thirty to forty per cent. more information in nearly every part of this year's report has been collected than ever before, much remains yet to be done, and I can not too strongly recommend that the law establishing the Bureau of Statistics be so amended as to require county officers to make annual reports to this department, and the law should be so framed as to require them to keep a book with a view to making such reports, and provision should also be made for them to

receive a reasonable compensation for doing this extra work. County officers are human, and where they receive no pay for the performance of a duty, they are not so careful as when there is a fee in sight. The law as it now stands is susceptible of being misconstrued, and I must urge upon the General Assembly the importance of so amending the act as to cure the manifold defects in the present law. It is gratifying to the department to state that most of the county and township officers, when called upon for reports to the Bureau, have shown a commendable zeal and energy, and that in most cases they were prompted by a sense of duty and public spirit, while a comparatively small number were reluctant in sending in their reports, and a few refused to do so.

The principal parts of the report embrace agricultural, economic, manufacturing, railroad, education, social, vital, criminal and mineral statistics, for the contents of which I refer you to the respective tables and the articles prefacing them.

The field of inquiries has been extended into new spheres of life, as will be noticed from the tables added in some of the divisions of the report.

Aside from other additions already mentioned in the several divisions of the report, the Bureau has deemed proper to present the following tables on banks, internal revenue and pension statistics for the State :

BANK STATISTICS.

Table I, shows the condition of the national banks of Indiana on October 2, 1883. Table II, gives the national banks of Indiana that have gone into voluntary liquidation, with date of liquidation, amount of capital and circulation outstanding November 1, 1883. Table III, gives the national banks of the State that have been placed in the hands of receivers, with capital, circulation and deposits and amount outstanding on November 1, 1883; also a list of insolvent national banks. In Table IV, the number of State banks, private bankers and savings banks of Indiana, with the average amount of their capital, deposits and investments in United States bonds is given. Table V, shows the national banks of Indiana that have gone into voluntary liquidation for the purpose of organizing new associations. Table VI, shows the State banks, savings banks and private bankers of Indiana, with their average

capital and deposits and tax thereon, from 1876 to 1883, and also an exhibit of the taxes (United States and State) of the national banks of Indiana from 1874 to 1883 inclusive.

On Table VIII, the National Banks of the State are given, whose corporate existence will expire during the year 1884.

INTERNAL REVENUE.

Table I, gives a statement of the receipts from each general source of Internal Revenue in the several collection districts of Indiana for the years 1881, 1882 and 1883. Table II, shows the receipts from Special Tax in each collection district of Indiana for the years ending April 30, 1882 and 1883. Table III, shows the amount of grain and malt used in the State for the production of distilled spirits, during the years 1881, 1882 and 1883, in the several collection districts, and in Table IV, a comparative statement is given showing the aggregate receipts of Internal Revenue from the State by collection districts from 1863, when the internal revenue law took effect, to 1883 inclusive. During this time the people of the State of Indiana paid the nice sum have of \$104,088,629 of Internal Revenue to the Government.

PENSION STATISTICS.

In Table I, the number of pensioners of Indiana, by Congressional Districts and counties, is given, with the amount of pensions paid them annually; also, amount of arrears of pensions for the year ending June 30, 1883.

In Table II, the number of pension claims allowed in each year (from 1861 to 1883 inclusive) is given, with percentage of claims allowed of each year's filing for the whole United States.

APPENDIX.

In the appendix which, it is thought, may prove valuable for reference, a statistical and historical table of the United States is given, containing the names of Presidents, Vice-Presidents, members of Cabinets, seats of State Governments, time for holding State elections, and meeting of the Legislatures of the several States; also, tables showing the voting population of the United States, and density of population in the States and Territories, according to the last census; exports, imports and immigration, for 1882 and 1883.

In concluding this, my first report, I may be allowed for a moment to allude to those who have assisted me in the preparation of this report. My principal assistant has been Mr. Charles Forster. His position has been one of labor, but he has always been equal to the work before him. In his personal relations, as in his business capacity, Mr. Forster is intelligent, capable, amiable, and always reliable.

My report would not be complete without bearing testimony of the efficient services rendered by Mrs. M. K. Gunckel, Miss Mamie E. Davis, Messrs. J. T. Fanning, M. P. Fitzgibbon, John G. Payne, and Mrs. M. F. Peelle.

Very respectfully, your obedient servant,

WM. A. PEELLE, JR.

FINANCIAL STATEMENT.

DEPARTMENT OF STATISTICS,
INDIANAPOLIS, October 31, 1883. }

In pursuance of Section 6 of an Act establishing this Department, I submit the following financial statement, accompanied with the proper vouchers for the money expended by me from March 10, 1883, when I assumed charge, to October 31, 1883, for which warrants have been issued amounting to \$1,540.94, this being the amount left at my command of the appropriation for 1883:

March 17.	Voucher No. 1	Chief of Bureau, postage . . .	\$25 00
March 29.	Voucher No. 2	United States Express.	3 35
April 2.	Voucher No. 3	William A. Peelle, Jr., salary .	66 67
April 2.	Voucher No. 4	Charles Forster, salary	55 77
April 2.	Voucher No. 5	M. K. Gunckle, salary	42 50
April 24.	Voucher No. 6	Western Telephone Company .	13 50
May 1.	Voucher No. 7	William A. Peelle, Jr., salary .	100 00
May 1.	Voucher No. 8	Charles Forster, salary	83 33
May 1.	Voucher No. 9	M. K. Gunckle, salary	65 00
June 1.	Voucher No. 10	William A. Peelle, Jr., salary .	100 00
June 1.	Voucher No. 11	Charles Forster, salary	83 33
June 1.	Voucher No. 12	M. F. Peelle, salary.	50 00
July 2.	Voucher No. 13	William A. Peelle, Jr., salary .	100 00
July 2.	Voucher No. 14	Charles Forster, salary	83 33
July 2.	Voucher No. 15	M. F. Peelle, salary.	50 00
July 2.	Voucher No. 16	M. E. Davis, salary	24 00
July 2.	Voucher No. 17	Chief of Bureau, postage . . .	50 00
Aug. 1.	Voucher No. 18	William A. Peelle, Jr., salary .	100 00
Aug. 1.	Voucher No. 19	Charles Forster, salary	83 33
Aug. 1.	Voucher No. 20	J. T. Fanning, salary	36 00
Aug. 1.	Voucher No. 21	M. T. Peelle, salary.	50 00
Aug. 1.	Voucher No. 22	M. E. Davis, salary.	36 00
Sept. 1.	Voucher No. 23	J. T. Fanning, salary	42 00
Sept. 1.	Voucher No. 24	M. E. Davis, salary.	32 00
Sept. 1.	Voucher No. 25	Charles Forster, salary	83 33
Sept. 1.	Voucher No. 26	Chief of Bureau, postage . . .	50 00
Sept. 26.	Voucher No. 27	Chief of Bureau, postage . . .	32 50
Total.			\$1,540 94

Respectfully submitted.

WILLIAM A. PEELE, JR.,

Chief of Bureau.

PART FIRST.

AGRICULTURAL STATISTICS.

AGRICULTURAL STATISTICS.

The year 1883, like the preceding one, must be called an unusual one for agriculture. A cold and wet spring following an open and protracted winter, delayed planting until a very late date. The cool summer was favorable for the growth of wheat in up-land, while a good deal of bottom land wheat had to be plowed up and planted in corn. On the whole, then, it must be said that corn and other crops were considerably retarded. It will be remembered that the corn crop of last year also had an unfavorable start, and the usual uncertainty as to the outlook for the season was heard until the end of June. The corn-plant especially was backward in growth, a large area had been re-planted the second and third time, while heavy rains interfered considerably with proper tillage. It was not until July had well advanced that the outlook of the corn crop allowed a well-defined condition of hopefulness, and a rapid progress was not reached until August, which month was very favorable for the development of corn, so much so that with an absence of early frost in 1882, the corn crop of that year reached larger proportions than any of its predecessors. The same conditions prevailed in 1883. Continuous heavy rains in the early spring, and the unprecedented rising of the Ohio, Wabash and White rivers, had overflowed a large area of bottom lands which, under favorable circumstances, would have yielded an abundant corn crop. But the early frost on the 9th and 10th of September destroyed fully one-tenth of the otherwise excellent crop. Fortunately, the injury was not so great all over the State. In some of the southern counties, *i. e.*, Posey, an excellent corn crop was harvested.

The wheat crop shows an average yield of 10.3 bushels per acre for the whole State. Based upon the reports of 886 out of 1,017 township trustees who sent in crop reports, the yield

in wheat on 3,049,209 acres in 1883 was 31,405,573 bushels, being an average of 10.3 bushels per acre, against an area of 3,163,348 acres, and a production of 46,928,643 bushels for 1882. The highest yield in wheat in any one county is shown in Posey, being 839,030 bushels, but her area of 60,867 acres does not make her average over 13.7 bushels per acre. The highest average was attained by St. Joseph county. A reference to the respective tables will show that this county on an area of 43,321 acres produced 810,569 bushels, which is an average of 18.7 bushels to the acre, while Lagrange, with $17\frac{1}{4}$ bushels stands second, and Elkhart and Kosciusko shows, the former a trifle over 17, and the latter just 17 bushels to the acre. The average in the other counties ranges in 38 counties below 10 bushels; in 10 counties it reaches between 10 and 11 bushels; in 9 counties between 11 and 12 bushels; in 5 counties it shows 13 bushels; in 3 counties between 14 and 15, and in 2 counties 16 bushels. The second tier of northern counties shows the largest average, while some of the best wheat counties in previous years show a remarkable falling off in the yield.

The area in corn this year was 3,125,376 acres against 3,312,683 last year, and the productions for this year as reported by the same number of township trustees, was 89,699,237 bushels against 115,699,797 bushels for 1882. The yield for this year shows an average of only about 28 bushels per acre.

The yield in corn also shows a wide margin. In thirty counties the average is above 30 bushels, while in 45 counties it reaches 20 to 30 bushels, and in a few counties only, it falls below 10 bushels per acre.

The highest average is shown by Posey county producing on an area of 49,451 acres 2,113,355 bushels, being 43.2 to the acre, while Vanderburgh county on an area of only 21,892 acres produced 934,540 bushels, and Knox county on 46,029 acres produced 1,962,610 bushels respectively, an average of 40.6 and 40.4 bushels.

The area of oats was 456,286 acres from which was harvested 19,567,789 bushels. Comparing this result with that of 1882, when on an area of 684,822 acres, 19,615,516 bushels were produced, it is evident that this year's yield in oats is the largest per acre ever grown in the State, for which we have any statistics.

The same is true of clover and timothy. The acreage in

clover was 939,615 and the tons produced were 1,628,519, while the acreage in timothy was 1,167,323 and the tons of hay produced were 1,831,137, being the highest yield ever grown in the State.

The Irish potato crop of this year is by far the largest ever reported in the State. The area for this year was 87,100 acres, and the yield was 8,353,412 bushels, against 72,934 acres and 7,264,836 bushels in 1882.

Reports of tile drainage were received from all the counties, which shows that there are 11,487,814 rods of tile drainage, against 9,824,297 rods reported in 1882, which is a most flattering evidence of the appreciation of this very important improvement in modern agriculture.

The acreage of timber land is reported at 4,412,608, while in 1882 4,585,012 acres were reported. This shows conclusively that our National forests, the pride and envy of all European tourists, are rapidly disappearing. Meanwhile our timber supply grows steadily scarcer and dearer, and land owners, with the best will in the world, seeing that they can not afford a systematic forest culture after scientific foreign methods, and not knowing what else they can do, do nothing. If there really, in the prairie sections of the State, is a tendency to tree planting, as has been asserted, that tendency should by all means be encouraged.

A most flattering condition is observed in our dairy products, while 121,080,678 gallons of milk, 26,937,124 pounds of butter, and 833,110 pounds of cheese were reported in 1882, the dairy products for 1883 show 130,303,785 gallons of milk, 29,591,845 pounds of butter, and 912,746 pounds of cheese.

A very perceptible increase will also be observed in the number of stands of bees and pounds of honey produced this year.

The area of grazing lands was 1,778,232 acres, and the excellent hay crop of this year has enabled the farmers to increase their live stock. There are in the State as reported 485,739 horses of all ages, from 1 year and under to 4 years and over; 47,979 mules, 1,057,296 cattle, of which 405,365 are milch cows; 1,911,820 stock hogs, and 1,064,763 grown sheep, and 432,599 lambs. No serious or contagious diseases among live stock has been reported, except distemper and pinkeye among horses, and as usual some cholera among hogs.

FRUIT CROP.

The usual calamities which, during the last three years decimated our fruit trees, such as inclement weather, late frosts in the spring, and early frost in autumn, besides obnoxious insects, have not been spared our orchards during the past year. Fully 30 per cent. of the peach trees were winter killed, and the changeable and stormy weather which set in just when the trees were in full bloom, interfered greatly with the fruit crop, and ruined what had escaped injury from other causes. The peach crop, with the exception of Dubois, Pike, Posey and Scott counties, which show respectively six, seven and eight-tenths of a full crop, must be called a failure, averaging less than one-tenth of a full crop.

In apples an average of four and seven-tenths of a full crop has been reached, while pears show only a little over three-tenths of a crop. The best counties for pears have been Blackford with nine-tenths, Grant with eight-tenths, and Hamilton, Howard, Jay, Posey and Union, with seven-tenths of a full crop.

Plums, quinces and cherries average between two and three-tenths of a full crop. Siberean crab trees fall a trifle below one-half crop, and grapes show a small fraction over one-half crop.

Our farmers were not slow in supplanting the loss in fruit trees sustained during the last three years. A reference to the table on "Death and Re-plant of Fruit Trees" will show that 624,324 young apple trees were planted the last year, while 458,895 died, which shows a gain of 165,229 apple trees. Of peach trees 313,055 trees were planted, and 226,590 died, showing a gain of 86,465 during the year. Of pear trees 21,247 were planted, while 30,538 died, showing a gain of 20,714.

TABLE I.

WHEAT.

Statement showing acres and bushels of Wheat for 1883 and 1882, and bushels for 1881, 1880 and 1879.

The following estimate of the total gross value of the agricultural and manufactured products of the State for 1888 has been based upon the reports received by the bureau, and such other data as were available for this purpose, at current prices of home market.

I—AGRICULTURAL PRODUCTIONS.

Wheat.....	\$31,405,573
Corn	40,364,656
Oats.....	5,870,336
Barley.....	219,550
Rye.....	197,182
Buckwheat.....	31,667
Flax seed and flax straw.....	278,446
Timothy and clover hay and seed.....	22,035,434
Potatoes, Irish and sweet.....	2,632,680
Tobacco.....	770,611
Poultry, eggs and feathers.....	3,505,737
Cider, vinegar and wine.....	305,426
Dairy products.....	9,530,000
Wool.....	989,416
Fatted hogs.....	21,491,538
Slaughtered cattle.....	4,043,400
Slaughtered sheep and lambs.....	227,780
Orchard products.....	2,500,000
Sorghum and maple sugar and molasses.....	1,523,194
Garden products.....	4,751,278
Mineral products (coal mines and stone quarries)..	3,888,418

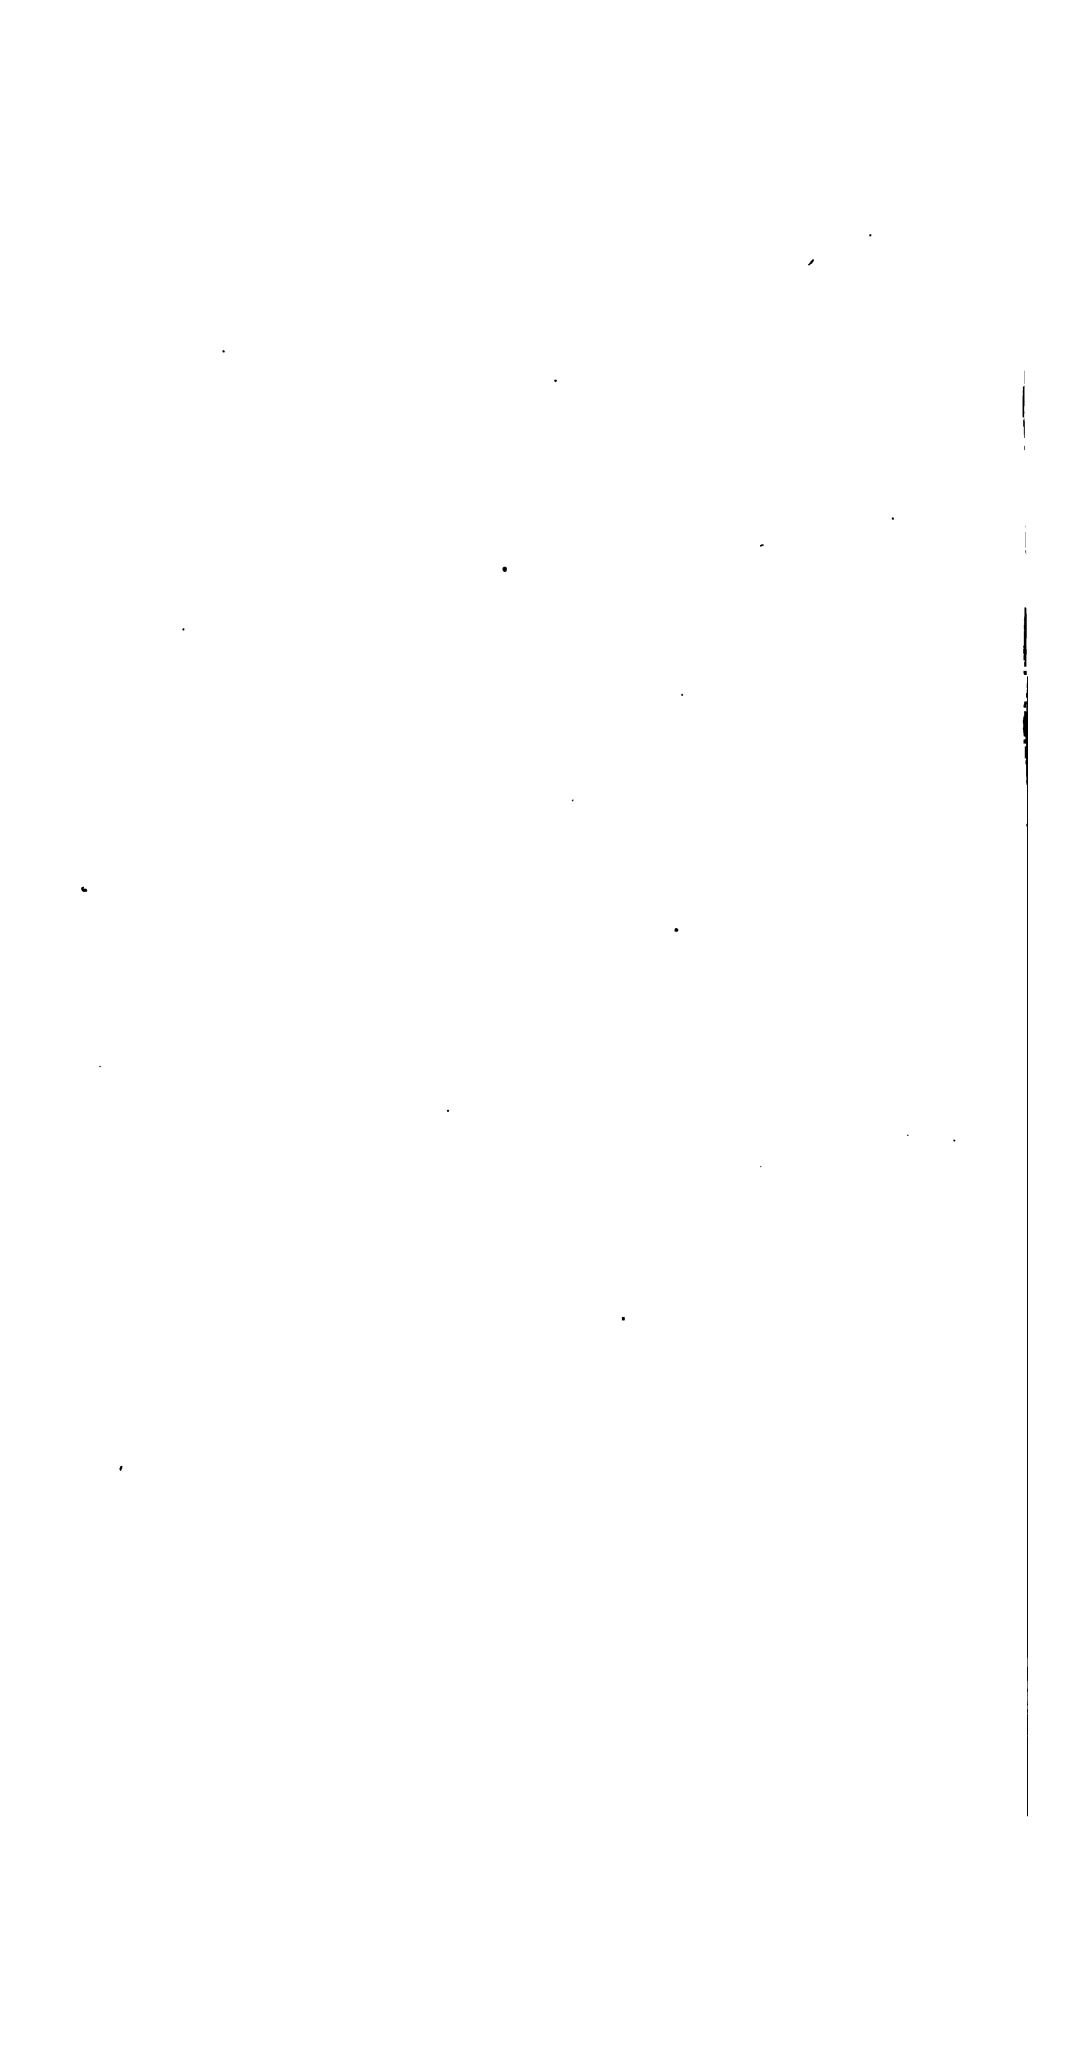

Total agricultural products	\$156,562,322

II—Product of manufacturing industries.....	160,527,282

Grand total of our productive industries....	<u><u>\$317,089,604</u></u>

PART SECOND.

ECONOMIC STATISTICS.

ECONOMIC STATISTICS.

The principal features in our Economic Statistics this year are the public expenditures of the several counties, to which has been added a statement of the public debt of the State and of each county, by minor civil divisions, showing by aggregates, the county, township and city indebtedness in each county. It is to be regretted that a few city officials did not report on this important subject, although repeatedly requested to do so. Nevertheless, the tables are complete, as far as possible, and correct, so as to allow a comparison between the several counties, townships and cities.

It is gratifying to the Bureau to state that no effort has been spared to get a full and correct report on the several items of public expenditures from *all* the counties, a task which has never before been accomplished by the Bureau. This success the Bureau must attribute to a better understanding and appreciation of the value of statistics on the part of the County Auditors, and to its own perseverance in urging upon them the necessity of sending in their reports. That the law establishing the Bureau of Statistics is defective in not properly defining the duties of, and failing to make provision for the payment of county and other officers from whom reports are sought to be obtained, is very evident. Scores of letters were received asking the Bureau who was going to pay for the amount of extra work the statistical reports would require. The Bureau could do nothing more than explain the object of the law, and refer to the importance of statistics. By this method the indifference or reluctance of some of the county officers were, at last, overcome, and a full report on county expenditures and local indebtedness were obtained from all the counties in the State. While in 1882 only thirty-one County Recorders could be induced to report on the different mortgages and transfers of real

estate, this year's report shows that fifty-three Recorders reported on these subjects. In 1882 only forty County Clerks reported on the amount of court business, the different civil and criminal cases, convictions, and official papers issued, etc., this year shows the reports of seventy Circuit Clerks on these subjects. The same is true of the County Treasurers who were requested to report the number of land and lot owners for 1882, sixty-three of whom sent in their reports.

In the tables on Economic Statistics the different items of county expenditures, mortgages, transfers of real estate, mechanics' liens, land and lot owners, taxation for all purposes, etc., are given, an increase of expenditures is shown by forty-nine counties, while thirty-nine show a decrease.

TABLE I.

ORGANIZATION OF COUNTIES.

Total average tax yearly	.20
Average poll tax	.61

INDEBTEDNESS OF INDIANA.

The following synopsis of a "History of the State Debt of Indiana" has been taken from the quarto volume of the United States census, published in 1881. Having been examined and corrected by the executive officers entrusted with the administration of the financial department at that time, it is so to be considered as an authentic exhibit of the origin of our public debt, created at various times during the early development of the State, from her admission into the Union to the present time. It is worth while the perusal of every one who takes an interest in the further development, growth, and progress of our State.

INDIANA.

Soon after her admission into the Union (December 11, 1816,) Indiana inaugurated an extensive system of internal improvements.

In 1806 the General Government had passed a law to construct a national road from Cumberland, Maryland, westward, and some forty successive acts prolonged the road from Cumberland through Pennsylvania, part of Virginia, Ohio, Indiana, and across Illinois to Alton, on the Mississippi river.

The expenditures in Indiana commenced in 1829, and continued annually to 1838, up to which time there had been expended within the State the sum of \$1,135,000. The 5 per cent. of the amount of sales of public lands to be paid to the State, under act of Congress, amounted to \$959,246.25 in 1848. Three

per cent., amounting to \$575,547.75, had been paid to the State, and 2 per cent., amounting to \$383,698.50, was expended under the direction of Congress, and formed part of the amount expended on the National road. In addition to the original grants of lands for schools, seminaries, and seats of government, Congress had, from time to time, made grants of land in aid of internal improvements.

Until the construction of the Erie canal, of New York, in 1827, there was no market for the products of Indiana outside the State itself, and for twenty years there was but little variation in the annual sales of lands.

At a later date, however, the outlet for produce from the tidewater to the lakes afforded by the completion of the Erie canal, the construction of the National road in Indiana, and the expenditure of large sums of money by the General Government within the State combined to stimulate immigration.

Under the general influence of speculation, which then pervaded the Union to an unusual degree, there was a gradual increase of the sales of land until 1836, when the maximum was reached, 3,016,960 acres being sold in that year. The sales diminished from that time, not because of a failure of demand, but by reason of a change of policy by the General Government, inaugurated for the purpose of reserving the lands for actual settlers.

In common with the other States, Indiana was seized with the passion for internal improvements.

The first work projected was the construction of the Wabash and Erie canal, to connect the waters of the lake with the Ohio river, by running from the Ohio State line, in the valley of the Miami, to Lafayette, Indiana, and from thence to Terre Haute—a total distance of 228 miles. Forming a part of the same scheme was the removal of all obstructions to navigation from the Wabash river. The cost of the entire work was estimated at \$2,000,000, which amount had been expended up to the time when the State suspended its payments, in 1841. In 1824 Congress had authorized the State to construct a canal through the public lands, to connect the waters of the Wabash and the Miami, and for that purpose granted 90 feet on each side of the canal to be constructed, to aid in its construction, and in 1827 made a further grant of one and one-half sections in width on each side of the canal, reserving to the United States each alter-

nate section. To make these donations available, the Legislature, in 1832, passed a law authorizing the appointment of a commission to borrow money on the credit of the State and to prosecute the contemplated work, and in the following year a portion of the work was put under contract.

From that time until the failure of the State's credit, loans were occasionally made, and the total amount of bonds issued for that purpose was \$1,727,000, which realized to the State \$1,767,560, all those issued being sold at par or a premium, except the last loan of \$400,000, which realized \$396,000.

In 1832 the Legislature incorporated eight joint stock companies for the purpose of constructing railroads from the Ohio river to Indianapolis, and to several places on the Wabash, with a capital aggregating \$4,000,000. These several enterprises and speculations were deemed to require a bank. The constitution of the State contained a provision that there should be no institution for the issue of bills of credit or notes payable to bearer or order; provided that this should not be construed to prevent the Legislature from establishing a State bank, with not more than one branch to three counties.

In 1834 the State Bank of Indiana was incorporated, and it went into operation in November of that year, with these branches, to-wit: In Indianapolis, Evansville, Terre Haute, Lafayette, New Albany, Vincennes, Richmond, Madison, Lawrenceburg and Bedford. In 1835 one was located at Fort Wayne, one at South Bend in 1838, and one at Michigan City in 1839, making thirteen in all.

Each of the branches issued and redeemed its own notes, and discounted by its own board of directors, three of whom were appointed by the parent board, which controlled the branches and could suspend either of them. In the event of failure, the stock owned by the State was to be paid in full before individuals were paid.

The State subscribed to the capital stock of the bank by issuing bonds and by turning over to that institution the fourth installment of the surplus revenue to be paid to the State by the General Government, which, however, was never paid, though the State anticipated the same by the issue and sale of bonds.

The total amount of bonds issued on account of this bank by the State up to April, 1839, was \$2,412,000. Of this amount,

\$1,000,000 was sold by the bank to the Morris canal at a time when the latter was largely indebted to the State of Michigan, much embarrassed, and its stock selling at 56 per cent. The bonds were sold for \$980,000, or 2 per cent. discount, and were to be paid for in ten equal payments. Only \$20,000 was realized. Although, as above stated, \$2,412,000 of State bonds were thus issued to the bank, the latter acknowledged and paid interest only on \$1,390,000; the difference, \$1,022,000, lost by the bank, was by some means turned over to the internal improvement fund.

The writers of 1849 alleged that the bank was clearly responsible for the loss, and claimed that it should have been held accountable therefor, instead of burdening the State.

The large expenditure of money for the several internal improvements undertaken, the establishment of the bank, and the distribution of the surplus revenue fund to the several counties naturally produced the desire for additional operations, and in 1836 the Legislature authorized the borrowing of \$10,000,000 for a gigantic scheme or system of internal improvements. Under the law three commissioners were appointed to borrow money. This scheme comprised the following works:

Whitewater canal.....	\$1,400,000
White river canal.....	3,500,000
Wabash and Erie extension.....	1,300,000
Wabash river improvements.....	50,000
Madison and Lafayette railroad.....	1,300,000
Turnpike from Vincennes to New Albany.....	1,150,000
Turnpike from New Albany to Crawfordsville.....	1,300,000
Total.....	<u>\$10,000,000</u>

These extensive improvements having been projected to benefit all localities in the State, work was commenced simultaneously on the whole, and the result was that vast sums of money were expended before any one improvement was completed.

To pay the principal and interest on the internal improvement debt, the following funds were set apart: First, the tolls of the works; second, the tolls from the Wabash and Erie Canal when the debt contracted for its construction should be paid from the lands granted by Congress; third, the sums re-

ceived from Congress under the act for the distribution of the surplus revenue, \$860,254.44; fourth the bank stock owned by the State when the profits accruing on it should have repaid the loans contracted to purchase it.

The original plan of internal improvements was from time to time largely extended, and it soon became evident that \$20,000,000 would not more than half suffice to complete the work, as it was found necessary, on account of sectional clamor, to carry on all the works of the State at the same time. The State also lost heavily in the negotiation of the bonds.

The State being unable to continue borrowing, the public works were suspended in 1839, and in 1840 the Board of Internal Improvements was suspended, only one member being continued at a salary of \$1,000 per annum.

At this time the public debt aggregated \$14,057,000, which had realized \$12,303,988.72, and of this latter sum \$3,559,791.34 had been lost through the Morris Canal Bank and other institutions, who purchased State bonds, agreeing to pay for them in installments, and, after having transferred the bonds, failed to pay for them.

The revenue in 1839 from all sources was estimated at \$420,388, which was \$400,000 less than required to pay the interest and civil expenses, but the estimate fell wide of the mark. In 1839 the tax was raised by adding a 75 cent. poll-tax, but the sum collected was insufficient to meet the ordinary expenses of the State.

There were assessed in that year 100,166 polls. Most of the voters then occupying Indiana were small farmers, living in log huts, and depending upon sales of pork and grain to provide the necessities of life. The expenditures on the National road stopped in 1838; the public works in 1839. The State, being unable to pay the interest, offered 7 per cent. bonds, to mature in five years, in payment, but of these only \$36,000 were accepted. From 1840 until 1847 no further efforts were made to pay interest on the debt. In 1840 and 1842 treasury notes were issued to meet present needs of the State, which were receivable for public dues, amounting to \$2,222,640, which were cancelled from time to time, so that in October, 1848, there were outstanding of these only the sum of \$431,200. There was also issued in 1842, \$100,000 in treasury notes, to redeem an equal amount of \$50 bonds and another description of scrip, amounting to \$419,355, which was gradually redeemed.

Thus, when the State suspended payment of interest, there were outstanding about \$3,000,000 of paper, issued in various forms, due to domestic creditors, which, being receivable in payment of taxes, prevented the receipt of available money.

It was found necessary to make some settlement of the State debt. Among the schemes projected was one which involved the sale of the public works, but none of these were adopted.

In 1845, however, a proposition was made by the leading bondholders to compromise the debt, based upon the Wabash Canal. It was evident that the State could not pay her debts in full by taxation, and the State's creditors proposed that the State pay one-half of the debt by taxation, and the other with the property and the tolls of the Wabash and Erie Canal.

The following statement of bonds issued is taken from the report of the Auditor of State to the Legislature of 1846, submitted for the year ending November 1, 1845 :

Internal improvement bonds.....	\$8,900,000
Wabash and Erie Canal bonds	1,727,000
State bank bonds.....	2,413,000
Surplus revenue bonds.....	294,000
Madison and Indianapolis Railroad bonds.....	456,000
Seven per cent bonds, issued to pay interest.....	1,100,000
Lawrenceburg and Indianapolis Railroad bonds.....	221,000
Total.....	<u>\$15,111,000</u>

Of this amount the \$294,000 surplus revenue bonds had been redeemed; there was in the treasury \$1,064,000 of the 7 per cent. bonds, signed but not issued; \$189,000 of the bonds issued in aid of the Lawrenceburg and Indianapolis Railroad, and \$1,064,000 of miscellaneous bonds had been redeemed and canceled—making a total redemption of \$2,611,000, and leaving the amount outstanding on November 1, 1845, \$12,500,000.

The agent of the State had received, but not yet settled for, \$20,000, leaving a net debt of \$12,480,000. Of this amount the State Bank paid interest on \$1,390,000, leaving the amount of \$11,090,000 outstanding, for which provision was required. The whole foreign debt,* according to that authority, was then as follows :

*The words "foreign debt" are used in this State to distinguish it from the debt owing by the State to certain funds held in trust by the State.

Bonds on which the State has to pay interest	\$11,090,000
Bonds on which the bank pays interest.	1,390,000
Interest up to January 1, 1846, including arrears.....	2,777,320
Total.....	<u>\$15,257,320</u>

The amount of annual interest on the foreign debt was as follows :

On \$100,000, at 6 per cent.....	\$6,000
On \$36,000, at 7 per cent.....	2,520
On \$10,954,000, at 5 per cent.....	547,700
Total.....	<u>\$556,220</u>

There was also outstanding on that date treasury notes as follows :

Six per cent. treasury notes.....	\$491,435
Interest on same (estimated).....	147,000
Five per cent. treasury notes.....	441,325
Interest on same (estimated).....	69,000
And loans from the bank.....	56,000
Total.....	<u>1,204,760</u>
Making the total debt.....	<u><u>\$16,462,080</u></u>

The interest payable annually on the treasury notes was as follows :

On bonds as above.....	\$556,220
On 6 per cent. treasury notes.....	29,486
On 5 per cent. treasury notes.....	22,066
Total.....	<u><u>\$607,772</u></u>

The total estimated revenue for 1846 was \$392,000.

On January 19, 1846, an act for the funding of the debt was passed by the Indiana Legislature,* which was supplemented by an act passed on January 27, 1847.† The main features of

*Laws 4845-46, p. 3. †Laws 1846-47, p. 3.

these enactments were that the outstanding bonds should be surrendered, and in lieu thereof certificates were to be issued for one-half of the principal, bearing 5 per cent. interest, 4 per cent. payable in cash, and 1 per cent. to be funded on January 1, 1853, interest payable semi-annually; for one-half of the unpaid interest from January 1, 1841, to 1847, a certificate to bear interest after January 1, 1853, at the rate of $2\frac{1}{2}$ per cent. per annum, payable semi-annually. These certificates of stock were to be redeemable at the pleasure of the State after twenty years. The 1 per cent. arrearage interest on the principal to be funded on January 1, 1853, should thereafter bear interest at the rate of $2\frac{1}{2}$ per cent. per annum, or, at the option of the holder, be added to the certificate above mentioned as being issued for one-half of the arrearage interest.

These certificates of stock were to be paid out of the State revenues, and the faith of the State was pledged for the payment thereof.

For the remaining half, a certificate of stock should be issued, bearing interest at the rate of 5 per cent. per annum from January 1, 1847, payable semi-annually, and for the remaining half of the back interest (from 1841 to 1847), a certificate of stock, bearing interest at the rate of 5 per cent. per annum after January 1, 1853, payable semi-annually. For the payment of these certificates the Wabash and Erie Canal, and all tolls, lands, and effects belonging thereto, from the Ohio State line to Evansville, and all the property of the State therein were pledged.

The act provided further that the bonds should not be exchanged until the sum of \$800,000 should be subscribed toward the completion of the canal from Lafayette to Evansville, the amounts to be re-paid out of the tolls of the canal, and the bondholders were authorized to subscribe *pro rata*; the certificates of stock to be issued in exchange for the bonds were to be of two classes—"preferred," being those to be issued the subscribers to the \$800,000 loan, and "deferred," being those issued to non-subscribers. Three trustees were to be appointed to take charge, management, and control of the canal, and complete the same, two of them to be appointed by the subscribers, and the other by the State.

For the purpose of providing for the payment of the interest and for other purposes, a tax of 25 cents on the \$100 was di-

rected to be levied, and 75 cents on each poll (in addition to 3½ cents for certain specified purposes), and it was believed that that rate would be sufficient to meet the wants of the State.

The value of property steadily increased. The assessment for State purposes, which in 1844 was \$304,657.17, had in 1848 increased to \$488,627.44.

The collections in 1848 exceeded the estimate by \$40,000. The outstanding treasury notes were gradually canceled.

The total canal debt in 1849 was nearly \$7,000,000, and was liable to be increased to nearly \$8,000,000 by the surrender of outstanding bonds. The State debt was about the same, and it was then estimated that the interest payable by the State in 1853 would be about \$330,000, and that the domestic debt would be canceled.

When the trustees took charge of the canal, in July, 1847, there were 887,067 acres of land belonging to the same, which, by act of 1848, was increased to 922,386 acres, estimated in all to be worth about \$1,500,000.

The tolls gradually increased from year to year, and the interest was promptly paid.

In January, 1851, all but \$1,186,000 of the old bonds had been converted into State and canal bonds, the State had passed her greatest financial difficulties, and the ability to meet her liabilities in the future seemed assured.

As stated above, the amount of bonds outstanding, prior to surrender under the State debt arrangement with holders, was \$11,048,000.

From a report of the Auditor of State, it appears that on August 5, 1850, there had been surrendered:

Wabash and Erie Canal bonds.....	\$1,250,000
Internal improvement bonds.....	6,973,000
Madison and Indianapolis Railroad bonds.....	865,000
Lawrenceburg and Indianapolis Railroad bonds.....	80,000
State Bank bonds.....	866,000
Seven per cent. bonds, to pay interest.....	29,000
Total.....	\$9,563,000
Total outstanding August 5, 1850.....	1,485,000
Grand total.....	<u><u>\$11,048,000</u></u>

On October 31, 1851, the amount outstanding was \$1,300,000. On that date there had been issued stock, for which the State was liable, to the amount of \$6,657,720; stocks chargeable on the Wabash and Erie Canal, \$6,325,262.50; total, \$12,982,982.50.

At this time all of the treasury notes had been redeemed, and it appears that, though only \$70,000 were issued, yet \$76,635 had been in circulation and had been redeemed. The authors of the fraud were never discovered.

In 1851 a new constitution was adopted, which went into effect on the 1st day of November of that year.

Section 2 of Article X of that instrument provided that all revenues derived from the sale of any public works belonging to the State, and from the net annual income thereof, and any surplus that may at any time remain in the treasury derived from taxation for general State purposes, after the payment of the ordinary expenses of the government, and of the interest of bonds of the State other than bank bonds, should be annually applied, under direction of the General Assembly, to the payment of the principal of the public debt.

The constitution further provided that no law should authorize a debt to be contracted on behalf of the State except in the following cases: To meet casual deficits in the revenue; to pay interest on the State debt; to repel invasion, suppress insurrection, or, if hostilities be threatened, provide for the public defense. And it was further provided that no county should subscribe for stock in any incorporated company unless the same be paid for at the time of such subscription, nor should any county loan its credit to any incorporated company, nor borrow money for the purpose of taking stock in any such company, nor should the General Assembly ever, on behalf of the State, assume the debts of any county, city, town, or township, nor of any corporation whatever.

The State has ever since promptly paid the interest, and has gradually redeemed the principal of the debt thus refunded; and from time to time old State bonds were presented and exchanged for the 5 per cent. and 2½ per cent. State stocks, under the law of 1846 and 1847.

In common with other Northern States, a large war debt was created, but the credit of the State suffered at no time, and her resources were ample to meet all her engagements promptly.

The following exhibit is taken from the Auditor's report for the year ending October 31, 1872:

FOREIGN DEBT.

Five per cent. State stock*.....	\$32,869 99
Two and a half per cent. State stock*.....	5,020 13
War loan bonds.....	139,000 00
Total foreign debt.....	<u>\$176,890 12</u>

DOMESTIC DEBT.

Non-negotiable bonds held by the school fund.....	\$3,729,016 15
Total debt.....	<u><u>\$3,905,906 27</u></u>

From 1847 to 1872 the State had paid as interest on the public debt the sum of \$9,097,332.35. There were also outstanding 191 bonds of \$1,000 each, issued prior to 1841, known as the internal improvement bonds. The holders had declined to surrender these bonds under the Acts of 1846 and 1847, or under the Butler bill, as it was called.†

To enforce the payment of these bonds a suit was commenced in the Circuit Court of Carroll County against the Wabash and Erie Canal. A special session of the Legislature was held, beginning on November 13, 1872. An act was passed at that session, and approved on December 12, 1872,‡ by which the redemption of the 191 bonds was authorized and directed, and a temporary loan of \$200,000 was authorized. On the 10th of March, 1873,§ a further temporary loan was authorized. These bonds were from that time forward redeemed as fast as presented, and on October 31, 1874, all but 94 had been redeemed, and on October 31, 1880, only 27 were outstanding and unpaid.

An amendment to the Constitution was ratified by the people on the 18th day of February, 1873, and it was declared part of the Constitution by proclamation of March 7, 1873. It provides that no law or resolution shall ever be passed by the General Assembly that shall recognize any liability of the

* Ceased to bear interest from September 1, 1870.

† The proposition to adjust the debt was made by Mr. Charles F. Butler, the agent of the foreign bondholders, and hence the name.

‡ Laws 1872-73, p. 11

§ Laws 1873, p. 77.

State to pay or redeem any certificate or stocks issued in pursuance of an act entitled "An Act to provide for the funded debt of the State of Indiana, and for the completion of the Wabash and Erie Canal to Evansville, passed January 19, 1846," and the acts amendatory thereof,* which by provision of said acts, or either of them, shall be payable exclusively from the proceeds of the canal lands and the tolls and revenues of the canal in the acts mentioned, and that no such certificates or stock should ever be paid by the State.

The canal has not been a successful enterprise. The canal debt was over \$16,000,000 in November, 1874, when suit was begun by the bondholders in the Circuit Court of the United States for the District of Indiana to terminate the trust, and asking sale of the canal property.

The estimated value of the canal lands remaining was about \$1,500,000. Afterward a decree of sale was entered, and the canal and all property belonging thereto has been sold by the receiver appointed by the court. The final settlement and distribution has, as yet, not been made, and it can not, therefore, be stated how much will be realized by the bondholders.

According to Governor Wright, at the opening of 1857, the entire amount of the funded debt of Indiana outstanding of the 5 per cent. stock was \$5,156,560, and of the 2½ per cent. stock, \$1,812.57.

The exhibit of the common school fund, including the estimated value of the sinking fund in the State Bank at that date, amounted to \$4,912,012.42.

The Governor recommended that the Sinking Fund Commissioners should be directed by law to invest the funds that accumulate in their hands in the stocks of the State. According to Representative W. Hunter, of the Committee on Ways and Means of the State Legislature of Indiana, the State debt, at the close of 1850, amounted to \$9,964,969.83.

On account of the refusal of the Legislature of 1858, in extra session, to levy a tax, as recommended by Governor Willard, the debt slightly increased, and amounted to \$10,286,855.57 in 1859.

In 1862 the funded indebtedness of the State was reduced to the following three loans:

* Acts 1847, p. 3.

Five per cent.....	\$5,322,500 00
Two and a half per cent.....	2,054,773 50
Six per cent. war loan.....	1,334,000 00
Total.....	\$8,711,273 50

The State, in May, 1861, had appropriated, in aid of the Federal Government, \$2,000,000, by an issue of twenty year 6 per cent. bonds. The debt remained almost stationary, though in 1865 a slight decrease is noticed. Between 1865 and 1866, as the following table shows, a decrease of nearly \$3,500,000 is noted, a large amount of the bonds becoming due, which were paid by the sinking fund:

CHARACTER OF BONDS.	1865.	1866.	Decrease.
Two and a half per cent. stock	\$2,076,480	\$1,191,092	\$885,368
Five per cent. stock	5,342,500	3,829,936	1,512,564
War loan 6 per cent. bonds	1,371,780	309,000	1,062,780
Vincennes University bonds	66,685	66,585	100
Total	\$8,857,425	\$5,396,613	\$3,460,812

The debt of this State, divided among the polls registered in 1865, was \$44.67 per poll; divided among the polls of 1866, it was \$23.58 per poll, being a proportionate reduction of the State debt to nearly one-half its amount. Compared with the taxable value of property, the debt of 1865 was 1.55 per cent., but the debt of 1866 was only 0.92 per cent., and it is evident from this showing that the financial condition of the State was improving at this date.

During the fiscal year ending October 31, 1883, the foreign debt of the State has been reduced by the payment of twenty-four internal improvement bonds, of one thousand dollars each, held by Henry Coughlan, of London, England, for which the following warrants were issued:

Principal, 24 internal improvement bonds, at \$1,000...	\$24,000
Coupons and interest.....	110,149
Total.....	\$134,149

The following is a statement of the State debt of Indiana on the 31st day of October, 1883:

FOREIGN DEBT.

Five per cent. stocks outstanding.....	\$14,469 99
Two and one-half per cent stocks outstanding...	2,355 13
Five per cent bonds held by and payable to the Brooklyn Savings Bank, of Brooklyn, N. Y., due December 1, 1889, but payable at pleas- of the State.....	200,000 00
Five per cent. bonds, payable on the same con- ditions, through Winslow, Lanier & Co., New York City.....	385,000 00
Six five per cent. internal improvement bonds, due July 1, 1886, held by the United States..	6,000 00

DOMESTIC DEBT.

Six per cent. non-negotiable bonds, due the Com- mon school Fund, interest payable semi-an- nually, April 10 and October 10, to the School Revenue for Tuition Fund.....	3,904,783 22
Five per cent. non-negotiable bonds held by Pur- due University, due April 1, 1901.....	340,000 00
Total debt of State.....	<u>\$1,852,608 34</u>

STATE AND LOCAL INDEBTEDNESS.

PART THIRD.

MANUFACTURING STATISTICS.

MANUFACTURING.

The growing interest felt in the development of our manufacturing industries has induced the department to try its utmost to obtain as full and accurate a report on manufacturing statistics as possible. In this endeavor the department has in the main been successful, although the reports from some counties are very unsatisfactory, and a few counties did not report at all. In some of the more settled counties with a large population, and where manufacturing has assumed large proportions, the collection of accurate statistics requires a great deal of labor and expense. It can not, therefore, be wondered at if, in the absence of some provision in the law for their payment, some county superintendents to whom this kind of work had to be entrusted, should have tried, under some sort of excuse, to decline making reports to the department, when they are receiving no pay for their "extra work," as they call it; or when in its performance not even their necessary expenses are paid.

The object of the department has been to present tables for all the various industries, by which the public, at home and abroad, could be enabled to form a correct idea of the magnitude our industries have assumed. But owing to the obvious inaccuracies in some reports and the palpable inconsistencies in others—a few not reporting at all—this idea had to be abandoned, and the tables here presented will, therefore, embrace only the leading or principal industries of the State. In twenty-five tables these are given, showing the number of establishments of each kind, by counties, the capital invested, the value of raw material used during the year, value of the manufactured product, average number of hands employed, and average daily wages.

Table XXVI shows the total for each county, and in Table XXVII a summary, by selected industries, is given for the whole State, embracing by the name of "miscellaneous manufactures," all other classes of which no tables were given. In the summary table the counties of Allen, Boone, Grant, Harrison, Monroe, Putnam, Rush and Wells, having failed to report, had to be estimated in accordance with the last United States census report, and their increase in population. These estimates were put on the table for miscellaneous manufactures as no data could be obtained by which to classify their manufactures.

- ✓ It is gratifying to the department to state that from 30 to 40 per cent. more information concerning manufacturing has been obtained than ever before. In nearly all of the eighty counties reporting, a marked increase is shown, as will be noticed by a comparison with the tables on this subject in last year's report. The following are the figures we present in this year's report :

Number of establishment.....	12,442
Capital invested.....	\$52,453,955
Value of raw material.....	96,904,306
Value of manufactured product.....	160,527,282
Average number of hands employed.....	78,940

Comparing these with the figures in the census report for 1880, an increase in the number of establishments is shown of 1,244, and 354 when compared with last year's report of this department. The capital invested, as stated by the census report, was \$65,742,962; last year's report stated, \$50,169,061, and this year's report gives \$52,453,955, showing an increase over last year of \$2,284,894. While the value of raw material shows an increase of \$2,607,329 over last year, the value of the manufactured product is \$6,540,161 less than last year, and \$12,520,871 increase over the census report for 1880. ✓

* The figures for drain-tile manufactories were taken from the "Organ of the State Association of Drain-tile Makers," thought to be more reliable than the reports from 56 counties, which show only 387 establishments for drain-tile making with an adequate reduction of capital, material and manufactured product.

PART FOURTH.

RAILROAD STATISTICS.

RAILROAD STATISTICS.

The State of Indiana is frequently—and with some degree of propriety—called a “Great Railroad State,” on account of the numerous railroads entering or passing through some parts of her territory. Certain it is, that her geographical position and central location between the eastern and western States, has enabled her to become the leading highway in the carrying trade and commerce of the east and west, by her extended railroad system. Railroads, then, are for our State pre-eminently an important factor in the progress and advancement our people have made in developing the vast and manifold resources with which Nature has blessed our soil.

The tables here presented will fully sustain the Bureau in its assertion concerning the importance of railroads. For the first time since the establishment of the Bureau, tables from all the railroads entering or passing through the several counties of our State, are presented, showing on Table I the number of miles of main and side track in each county, and the assessed valuation of the same; also the value of rolling stock and improvement on right of way, and the capital stock and total indebtedness of the several railroads in Indiana, representing an assessed value for the State of \$58,480,932.

There have been added 341.75 miles of main track since last year's report, so that the entire length of the railroads in Indiana now amounts to 5,240.19 miles of main track, 60.54 miles second main and 925.34 side track.

Table II shows the equipment of the several railroads in the State, while on Tables III and IV the passenger and freight traffic, and the annual earnings and operating expenses and taxes, for each road or system of roads, are given.

Table V contains a statement showing the wages paid by railroads to eight different classes of employes, and in Table VI a statement is given showing the number and character of accidents, with the number of persons killed or injured during the last year. On Table VII an exhibit is given of the aid voted by counties and townships to railroads in 1882 and 1883, either as donations or stock taken.

†† To Indianapolis & Bel River R. R.

PART FIFTH.

VITAL STATISTICS.

VITAL STATISTICS.

The most accurate and reliable figures and facts are found in the tables for Vital and Sanitary Statistics. Since the County Boards of Health began to report monthly to the State Board of Health, most accurate figures and data are obtained of the births, marriages and deaths in every month, for which the Bureau is indebted to the Secretary of the State Board of Health, Dr. E. S. Elder.

The tables in this division, as will be seen, embrace one full year, commencing Oct. 1, 1882, and ending Sept. 30, 1883, while the reports of last year only showed nine months. Table I gives the number of births by counties, months, sex, color and nationality. Table II shows the number of marriages in each month, arranged by counties, color and nationality. On Table III is given the total number of deaths in each county by months and sex; while on Table IV a summary by counties of births, marriages and deaths is given. Instead of the former "nosological arrangement," the English system of classification of diseases has been adopted—each of the five classes is subdivided into certain orders of diseases, and the several diseases causing deaths are each specified.

TABLE I.

Total Number of Births, arranged by Counties, Months, Sex, Color and Nationality, for the year ending September 30, 1883.

PART SIXTH.

SOCIAL STATISTICS.

SOCIAL STATISTICS.

In this part of the report the Bureau for the first time presents tables on divorces, naturalization, county asylums, etc., besides the usual tables on church organizations and denominations, libraries, pianos, organs and sewing machines. The Bureau feels confident that by extending its inquiries into these new fields, by which the sphere of our social life is generally enlarged, the social relations of our people will be better appreciated. It is to be regretted that not all the counties are represented in the table for divorces. Only sixty-three County Clerks reported on naturalization and sixty-nine on divorces, while many were unable to state the causes or complaints upon which the decrees were granted.

The number of persons naturalized, as far as reported for 1883, has been 2,169. Of these 1,044 were from Germany, 207 from England and Wales, 207 from France, 116 from Ireland, 77 from Scotland, etc.

In the sixty-nine counties reporting on the subject of divorces, 1,227 were granted, 756 to the wife, 361 to the husband, and 110 were not stated. The decree in most cases has been granted on the complaint of "failure to provide," and "absence and neglect," while in many cases the decree was based on a combination of causes.

The table giving the voting population of Indiana, as reported by the County Auditors to the Auditor of State, and in which a comparison was made with the voting population in 1877, may be of value in the next apportionment for Congressional purposes.

TABLE I.

STATEMENT OF CHURCHES FOR 1883.

DENOMINATIONS.	No. of Church Organizations.	No. of Church Edifices.	MEMBERSHIP.			Admitted to Full Membership During Year.	Value of Church Building, Lot and Other Church Property.	Amt. Paid Ministers' Salaries.	Other Expenses.	Missionary, Charitable and Other Contributions.	No. S. S. Teachers.	No. Pupils Attending Sunday School.	No. Attendance on Public Services.

TABLE VII.

Enumeration for Congressional Purposes.

In the following tables are given the Congressional Districts as they are now formed, with the enumeration of voters as taken during the year 1883, and in separate column the official enumeration of 1877 is shown, to aid in comparison, as taken from the returns to the Auditor of State:

First District.

COUNTIES.	1883.			1877.
	White.	Colored.	Total.	
Posey	4,763	213	4,976	4,526
Gibson	4,831	291	5,122	4,766
Vanderburgh	10,207	1,178	11,385	8,852
Warrick	4,513	150	4,663	4,344
Spencer	4,593	286	4,888	4,802
Pike	3,766	23	3,789	3,497
Perry	3,662	46	3,708	3,461
Total	36,335	2,196	38,531	34,350

Second District.

Sullivan	4,711	29	4,740	4,710
Greene	4,634	30	4,664	4,848
Knox	6,190	136	6,326	5,508
Daviess	4,958	74	5,032	4,707
Martin	2,708	4	2,710	2,656
Lawrence	3,864	65	3,929	4,742
Orange	3,089	20	3,059	3,029
Dubois	3,583	14	3,597	3,247
Total	33,685	372	34,257	33,447

Third District.

Jackson	5,218	54	5,272	4,853
Jennings	3,708	84	3,787	3,722
Washington	4,305	..	4,305	4,014
Scott	1,803	..	1,803	1,888
Clarke	6,449	630	7,079	6,124
Floyd	5,791	350	6,141	5,097
Harrison	4,662	69	4,731	4,340
Crawford	2,786	3	2,789	2,343
Total	34,717	1,190	35,907	33,381

TABLE VII—Continued.

Fourth District.

COUNTIES.	1883.			1877.
	White.	Colored.	Total.	
Union	1,962	48	2,000	1,921
Decatur	4,837	42	4,879	4,811
Franklin	4,668	4	4,697	4,813
Ripley	4,668	20	4,678	4,611
Dearborn	6,513	24	6,537	5,936
Jefferson	5,716	154	5,870	6,006
Ohio	1,269	31	1,290	1,309
Switzerland	3,176	73	3,249	3,081
Total	32,804	396	32,200	32,488

Fifth District.

Putnam	5,290	75	5,365	5,145
Hendricks	5,834	98	5,432	5,194
Morgan	4,174	29	4,203	4,363
Johnson	4,434	79	4,513	4,606
Owen	3,591	19	3,610	3,491
Monroe	3,571	78	3,649	3,466
Brown	2,280	...	2,280	1,986
Bartholomew	5,286	69	5,355	5,468
Total	33,940	447	34,387	33,731

Sixth District.

Delaware	5,493	54	5,547	5,087
Randolph	6,569	151	6,710	6,026
Henry	6,124	159	6,283	5,615
Wayne	9,846	428	10,274	8,869
Rush	6,004	157	6,161	4,662
Fayette	3,171	66	3,236	2,918
Total	36,197	1,014	37,211	33,347

Seventh District.

Marion	27,529	2,283	29,812	25,652
Hancock	4,152	15	4,167	3,980
Shelby	6,089	76	6,165	5,569
Total	37,770	2,374	40,144	35,191

TABLE VII—Continued.

Eighth District.

COUNTIES.	1883.			1877.
	White.	Colored.	Total.	
Warren	2,783	•3	2,786	2,746
Fountain	4,943	22	4,965	4,869
Montgomery	7,211	134	7,345	6,567
Vermillion	3,075	20	3,095	2,772
Parke	4,869	78	4,947	4,743
Vigo	10,853	396	11,249	9,168
Clay	6,315	151	6,466	5,715
Total	40,049	804	40,853	36,610

Ninth District.

Tippecanoe	9,351	74	9,425	8,678
Clinton	6,239	29	6,268	5,271
Tipton	3,688	12	3,700	3,232
Boone	6,346	67	6,413	6,045
Hamilton	5,795	172	5,967	5,574
Madison	6,719	32	6,751	6,035
Total	38,106	386	38,494	34,835

Tenth District.

Lake	4,043	4	4,047	3,496
Porter	4,664	8	4,672	4,026
Newton	2,045	14	2,059	2,118
Jasper	2,469	•	2,469	2,260
Pulaski	2,409	2	2,411	2,225
Fulton	3,683	8	3,691	3,319
Cass	7,358	59	7,417	7,058
Carroll	4,602	6	4,608	4,318
White	3,545	3	3,548	3,255
Benton	2,937	4	2,941	2,669
Total	37,965	108	38,073	34,804

Eleventh District.

Miami	6,190	39	6,229	5,617
Wabash	6,453	42	6,495	5,890
Huntington	6,293	5	6,298	5,051
Wells	4,592	•	4,592	4,018
Adams	3,800	•	3,800	3,262
Howard	5,064	113	5,167	4,649
Grant	6,007	200	6,207	5,459
Blackford	2,106	7	2,113	1,807
Jay	5,024	43	5,067	4,140
Total	45,529	449	45,978	39,963

TABLE VII—Continued.

Twelfth District.

COUNTIES.	1883.			1877.
	White.	Colored.	Total.	
Lagrange	3,907	4	3,911	3,794
Steuben	3,741	2	3,743	3,633
Noble	5,800	7	5,807	5,448
Dekalb	5,220	6	5,226	5,221
Whitley	4,324	25	4,349	3,942
Allen	13,865	45	13,910	12,719
Total	36,857	89	36,946	34,967

Thirteenth District.

Laporte	8,444	80	8,524	7,419
St. Joseph	9,536	75	9,611	7,303
Elkhart	9,198	12	9,148	7,926
Starke	1,373	3	1,376	1,166
Marshall	5,499	...	5,499	5,159
Kosciusko	6,509	12	6,521	6,318
Total	40,497	182	40,679	36,291

RECAPITULATION.

First District	36,335	2,196	38,531	34,350
Second District	33,685	372	34,257	30,447
Third District	34,717	1,190	35,907	32,381
Fourth District	32,804	396	33,200	32,488
Fifth District	33,940	447	34,387	33,731
Sixth District	36,197	1,014	37,211	33,347
Seventh District	37,770	2,374	40,144	35,191
Eighth District	40,049	804	40,853	36,610
Ninth District	38,108	386	38,494	34,835
Tenth District	37,965	108	38,073	34,804
Eleventh District	45,529	449	45,978	39,863
Twelfth District	36,857	89	36,946	34,967
Thirteenth District	40,497	182	40,679	36,291
Grand total	484,653	10,007	494,660	451,296

TABLE VIII.

Abstract of Votes Polled for Governor in 1880, and for Secretary of State in 1882, as taken from the official records.

COUNTIES.	FOR GOVERNOR, 1880.			FOR SECRETARY OF STATE, 1882.		
	Porter, Rep.	Landers, Dem.	Grogg, Nat'l.	Myers, Dem.	Hawn, Rep.	Leonard, Nat'l.

Total.	1,100	594	503	1,097	202	175	377	65	74	139

† Includes the number of those dismissed during the year.

NOTE.—The number of soldiers' orphans and feeble-minded children from the several counties could not be ascertained from the records of the Soldiers' Orphans' Home and Asylum for Feeble-minded Children, at Knightstown. Total number of inmates, 145 soldiers' orphans, 86 feeble-minded children.

PART SEVENTH.

EDUCATIONAL STATISTICS.

EDUCATIONAL STATISTICS.

The sources of information on Educational Statistics were the reports of the School Superintendents to Hon. J. W. Holcombe, Superintendent of Public Instruction, to whose courtesy and favor the Bureau is indebted for them. From an examination of the accompanying tables it will be noticed that the public sentiment in regard to our public schools shows a steady advance in the appreciation of these institutions, and of the value and importance of our educational interests.

During the past year 301 new school houses have been built in the State, at a cost of \$421,646. The aggregate value of the common school property of the State is \$13,019,931, against \$12,310,904 last year, which is an increase of \$709,027. The common school fund has been increased \$64,718.68 since the last report, and the several counties hold on mortgaged real estate \$5,201,753 of the permanent school fund.

The enumeration of school children (from six to twenty-one years of age) in 1883 was 719,035, against 709,571 in 1882, which is an increase of 9,464 over the enumeration of 1882.

TABLE I.

SCHOOL HOUSES AND THEIR VALUE.

Statement Showing the Number of Stone, Brick, Frame and Log School Houses, Estimated Value of School Houses, Grounds, Apparatus, etc.; School Houses Built During the Year, and Value of the same, for the Year 1883.

TABLE V.

SCHOOL FUNDS OF INDIANA FOR 1883.

I. COMMON SCHOOL FUND.

Amount held by Counties June, 1882.....	\$2,838,675	65
Amount since added from fines by Clerks.....	\$26,677	54
Amount since added from fines by Justices	27,793	39
Amount since added from other sources.....	4,300	21
		<u>58,771 14</u>
Total amount held by Counties, June, 1883....	\$2,897,446	79
Non-negotiable bonds by State.....	3,904,783	21
Total amount Common School Fund.....	\$6,802,230	00

II. CONGRESSIONAL TOWNSHIP SCHOOL FUND.

Amount held by Counties, June, 1882.....	\$2,365,935	19
Amount since added by sale of lands.....	38,291	52
Amount received from other Coun- ties	\$5,469	73
Deduct amount paid other Counties..	5,347	73
		<u>122 00</u>
Total amount held by Counties, June, 1883....	\$2,404,348	71
Value of 6,325 acres of unsold land.....	65,332	07
Total Congressional Township School Fund..	\$2,469,680	78

SUMMARY OF SCHOOL FUNDS.

Common School Fund held by Counties, June, 1883.	\$2,897,446	79
Non-negotiable bonds.....	3,904,783	21
Congressional Township School Fund.....	2,469,680	78
Grand total in 1883.....	\$9,271,910	78
Grand total in 1882.....	9,207,192	10
Increase for the year 1883.....	\$64,718	68

TABLE VI.

DISTRIBUTION OF SCHOOL REVENUE—MAY APPORTIONMENT, 1883.

Showing the enumeration of children of school age in each county, the amount of school revenue ready for apportionment, and the source from which it is derived, the total amount of school revenue for distribution, including interest paid by the State and the shares thereof apportioned to each county, May, 1883.

Number.	COUNTIES.	Number of Children between 6 and 21 years of age.	Amount derived from Tax.	Interest Collected on Common School Fund since last apportionment.	Amount derived from Unclaimed Fees.	Total collected, ready for apportionment.	Amount apportioned to each County.

PART EIGHT.

CRIMINAL STATISTICS.

CRIMINAL STATISTICS.

In no other point is the defectiveness of the law creating the Bureau of Statistics more clearly shown, and the collection of statistics attended with greater difficulties than in the division of Criminal Statistics. The only proper sources from which the Bureau could obtain reliable information as to crimes are the Circuit Clerks of the several counties. But, since by an omission in the law as it now stands, Clerks of Circuit Courts are not included among the officers whose duty it is to make reports to this Department when called upon, quite a number failed to report, on some excuse or other.

Failing in its efforts to obtain accurate and reliable information from which to make proper classification of crimes and convictions of persons, the Bureau had to content itself with an effort to obtain from the County Sheriffs the number of persons confined in jail during the year, with the crimes charged, nationality, condition of jail, etc. Reports on these subjects were received from all but six counties. Of the 17,773 persons reported as prisoners in jail the past year, 1,576 were from Indiana, 1,516 from other States, and 2,194 were reported as foreigners, while in a great majority the nationality was not stated. The crimes charged were only stated in 7,403, out of 17,773 cases, leaving 10,373 reported "not known."

Tables II, III and IV show the number of prisoners received into and discharged from both the Indiana State Prisons, North and South, during each year up to 1883, and also the number of boys received into and discharged from the House of Refuge from the date of its opening to 1883.

PART NINTH.

MINERAL STATISTICS.

MINERAL STATISTICS.

The collection of reliable and accurate statistics concerning the mineral resources of our State, has been found to be a very difficult task. Assessors in whose townships coal mines are situated, are, generally, debarred by lack of time to ascertain correct figures and facts from the owners of coal mines, and whenever they may leave blanks to be filled for "statistical purposes," the owners of mines very seldom consider these blanks to be of any value and neglect to fill them, not unfrequently surmising that a true and correct answer to the proposed questions will, necessarily, involve an increased taxation, or may interfere with their business, etc. Not much better fares the State Mine Inspector, whose duty it is to visit the several mines of the State, at least once a year. Not only are the owners of mines very reticent, but some of them flatly refuse to answer certain questions of a statistical nature. Hence it is that the tables in this part of the report are not at all satisfactory to the Bureau.

Table I gives the number of cubic feet of sand and limestone quarried in 1882 and 1883, bushels of lime burned and barrels of cement made during the years 1882 and 1883.

Table II shows the number of tons of coal mined, cubic yards of gravel sold, and tons of fire-clay mined, in 1882 and 1883, and in Table III, which was compiled from the State Mine Inspector's report for 1883, the number of coal mines, average number of persons employed in mining, tons of coal mined, capital invested and number of persons killed or injured by accidents in coal mines, for 1883, are given.

TABLE I.

MINE AND QUARRY PRODUCT, STONE, ETC.

Statement showing the Cubic Feet of Lime and Sandstone Quarried, Bushels of Lime Burned, and Barrels of Cement made, during the years ending April 1, 1882, and 1883.

Fourth district.	2,683,702 45	21,087 98	59,945 67	820 36	..	..	2,765,160 46
Sixth district.	530,350 57	73,971 61	91,234 31	30,198 64	\$2 22	537 80	728,345 15
Seventh district.	1,532,998 43	46,927 67	39,691 80	15,847 77	9 38	433 54	1,636,108 59
Tenth district.	36,520 52	71,666 99	43,273 92	15,144 14	49	24 50	166,630 46
Eleventh district.	19,620 66	46,904 93	9,681 25	12,672 83	..	2,091 91	90,871 57
Total.	\$4,877,637 95	\$314,832 57	\$318,245 76	\$78,180,71	\$12 09	\$3,705 77	\$5,592,618 85

A growing industry in connection with the distilling interests of the country is the feeding of cattle and hogs. The following statistics, which have been collected for the first time, show the number of cattle and hogs fed in connection with grain distilleries in Indiana during the years 1881, 1882 and 1883:

YEAR.	No. of Cattle fed with slops.*	Average increase in weight.	Number of hogs fed.	Average increase in weight.	Total increase in weight of cattle and hogs.
1881	8,889	222+	6,441	166+	3,047,000
1882	5,607	200+	9,998	130+	2,428,448
1883	4,917	177+	2,125	175+	1,312,250
Total	19,413		18,564		6,787,698

*Some distillers sell their slops; others feed cattle for others, but keep no data, but all feed their own stock with it.

TABLE II.

Statement showing the Internal Revenue Receipts from Special Taxes in each Collection District of Indiana for the years ending April 30, 1882 and 1883, as reported by the Internal Revenue Collectors.

1882.

Total on files June 30, 1883.	248,202	26,981	275,183	96,021	541	96,562	5,665	242	5,907	2,100	6	2,106	9,175	9,557	..	370,720	386,490	

An actual count of the files was had at the close of the year. The considerable increase in the number of cases on the rejected files in excess of those added thereto during the year, is by the addition of old war and navy claims which had not been included in the reports of former years. These claims related to wars prior to 1861, and classed as follows: 18,078 Army invalids and widows and 1,506 Navy invalids and widows.

Under the head of "widows, etc.," in the Army and Navy classes, are included minor children and dependent relatives. In the number of increase claims are included those provided for by the act of March 3, 1883, of which 13,004 were admitted, and 1,110 rejected.

There were received during the year 327 applications for bounty land warrants; 39 warrants were issued, and 120 applications were rejected. At the close of the year 2,429 applications were pending, and 81,384 claims were on the rejected files.

There were allowed during the year arrears of pension in the case of those who were in receipt of a pension January 25, 1879, and granted arrears by the act of that date, 118 Army invalids; 30 Army widows; 1 Navy invalid; a total of 149. For disbursements on account of this class, see Table III.

APPENDIX.

Table showing the Seats of Government, the time of Election of State Officers, and the meeting of the Legislatures of the several States.

STATES.	SEATS OF GOVERNMENT.	TIME OF MEETING OF LEGISLATURE.	TIME OF HOLDING STATE ELECTIONS.
Alabama	Montgomery	Tuesday after second Monday in November.	First Monday in August.
Arkansas	Little Rock	Second Monday in January.	First Monday in September.
California	Sacramento	First Monday after January 1	First Tuesday after first Monday in November.
Colorado	Denver	First Wednesday in January.	First Tuesday after first Monday in November.
Connecticut	Hartford	Wednesday after first Monday in January.	Tuesday after first Monday in November.
Delaware	Dover	First Tuesday in January.	Tuesday after first Monday in November.
Florida	Tallahassee	Tuesday after first Monday in January.	Tuesday after first Monday in November.
Georgia	Atlanta	First Wednesday in November.	First Wednesday in October.
Illinois	Springfield	Thursday after first Monday in January.	Tuesday after first Monday in November.
Indiana	Indianapolis	Thursday after first Monday in January.	First Tuesday after first Monday in November, 1894.
Iowa	Des Moines	Second Monday in January.	First Tuesday after second Monday in October.
Kansas	Topeka	Second Tuesday in January.	Tuesday after first Monday in November.
Kentucky	Frankfort	Last day in December.	First Monday in August.
Louisiana	New Orleans	Second Monday in May.	First Tuesday after third Monday in April.
Maine	Augusta	First Wednesday in January.	Second Monday in September.
Maryland	Annapolis	First Wednesday in January.	Tuesday after first Monday in November.
Massachusetts	Boston	First Wednesday in January.	Tuesday after first Monday in November.
Michigan	Lansing	First Wednesday in January.	Tuesday after first Monday in November.
Minnesota	St. Paul	Tuesday after first Monday in January.	Tuesday after first Monday in November.
Mississippi	Jackson	First Wednesday after first Monday in January.	Tuesday after first Monday in November.
Missouri	Jefferson City	First Tuesday in January.	Tuesday after first Monday in November.
Nebraska	Lincoln	First Wednesday in January.	Tuesday after first Monday in November.
Nevada	Carson City	First Tuesday in June.	Tuesday after first Monday in November.
New Hampshire	Concord	First Wednesday in January.	Tuesday after first Monday in November.
New Jersey	Trenton	Second Tuesday in January.	Tuesday after first Monday in November.
New York	Albany	First Tuesday in January.	Tuesday after first Monday in November.
North Carolina	Raleigh	Wednesday after first Monday in January.	Tuesday after first Monday in November.
Ohio	Columbus	First Monday in January.	Second Tuesday in October.
Oregon	Salem	First Monday in January.	First Monday in June.
Pennsylvania	Harrisburg	First Tuesday in January.	Tuesday after first Monday in November.
Rhode Island	Newport-Providence	Last Tuesday in May.	First Wednesday in April.
South Carolina	Columbia	Fourth Tuesday in November.	Tuesday after first Monday in November.
Tennessee	Nashville	First Monday in January.	Tuesday after first Monday in November.
Texas	Austin	Second Tuesday in January.	First Tuesday after first Monday in November.
Vermont	Montpelier	First Wednesday in October.	Tuesday after first Monday in November.
Virginia	Richmond	First Wednesday in December.	Second Tuesday in October.
West Virginia	Wheeling	Second Wednesday in January.	Tuesday after first Monday in November.
Wisconsin	Madison	Second Wednesday in January.	Tuesday after first Monday in November.

1882	210,721,981	505,491,907	716,213,948	216,138,916	42.758	30.178
1883	206,913,289	493,916,384	†700,829,673	210,637,393	42.646	30.055

* The expression "entered for consumption" refers to the form of the entry of goods made by the importer at the custom-house, and merely implies the delivery of the imported goods from the custody of the customs officers to the importer.

† The value of the merchandise entered for consumption amounted, as above stated, to \$700,829,673 28, and embraced both goods entered for immediate consumption on arrival in the United States and goods withdrawn from warehouse for consumption during the year. The value of the imports into the United States, as hereinbefore shown, amounted to \$723,180,914, embracing both goods entered for immediate consumption on arrival, and goods entered for warehousing awaiting the payment of duties. The two statements differ in character. This accounts for a seeming discrepancy.

IMMIGRATION IN 1882 AND 1883.

Number and Nationalities of Immigrants Arrived in the United States during the Years ended June 30, 1882 and 1883, respectively.

1884.									

NOTE.—The amounts of estimated revenue and expenditure given are those stated in the annual reports of the Secretary of the Treasury to Congress, prepared in each case about eight months prior to the close of the fiscal year for which the estimates were made. Amounts received upon loans and payments upon account of the principal of the public debt are not included in this statement.

Amount of Revenue of the United States for each Year ended June 30, from 1857 to 1883, inclusive.

Total			<u>\$3,558 64</u>

ERRATA.

On pages 23 and 24—"Pounds of Tobacco," the column for 1882 should be headed "1881," and the column for 1881 should be changed to 1882.

On page 28—"Tons of Clover for 1883," in Monroe county, should read 3,013, and tons in Montgomery county should read 33,336.

On page 79—"Acres of Timber Land," in Whitley county, should read 59,198, instead of 5,998, changing the total from 4,412,608 to 4,465,608 acres.

On page 85—"Organization of Counties," in the column for "Remarks," (Howard county) read "Richardville" instead of "Richville."

INDEX TO SUBJECTS.

A.

	<i>Page.</i>
Accidents to persons on railroads	227
Acknowledgments to county officers	83
Acres, number of to a family in the United States	410-411
Acres, number of to a person in the United States	410-411
Administration, number of letters issued during year ending June 30, 1883 .	103-104
Administrations pending at beginning of year	103-104
Administrators' and guardians' transfers of real estate during year ending May 31, 1883	112-114
Advertising and printing, cost of for 1882-3	97-98
Adventists, church of	305
Agricultural statistics	13-79
Agricultural implements	153
Agricultural productions, value of in 1883.	80
Aid voted to new railroads by townships and counties	228
Ahavath Sholom, church of	305
Apples, bushels of dried for 1881 and 1882	43-45
Apple trees, bearing and non-bearing, 1883 and 1882	67-68
Apple trees, number planted and died, 1883	75-77
Area of counties in square miles	85-86
Attorney-Generals of the United States	402

B.

Bailiffs, jurors, etc., cost of	87-88
Bank statistics of Indiana	365-370
Baptists, statistics concerning	304
Baptists, missionary, free will, predestinarian, separate and colored, statis- tics concerning	804
Benevolent institutions, inmates of	322-323
Benevolent and reformatory institutions cost of 1883-82	91-92
Bees, stands of for 1883 and 1882	39-40
Bees, stands killed in 1883	39-40
Berries, gallons of canned, etc., in 1882 and 1881	43-45
Births, number of in 1883, by counties, months, sex, etc.	232-235
Births, marriages, and deaths, by counties, in 1883	246-249
Blacksmiths, number of in 1883	154-155
Blind Asylum, pupils in, by counties	322-323

	<i>Page.</i>
Blue grass, bushels of seeds for 1883 and 1882	29-30
Blue and other wild grasses, acres for 1883 and 1882	78-79
Books and stationery for counties, cost of in 1883 and 1882	95-98
Boot and shoe manufactories in 1883	156-157
Brakesmen, number and wages of	224
Breweries and malt houses	158-159
Brick manufactories in 1883	160-161
Brick school houses, number of in 1883	328-329
Bridges, cost of new and of repairs of in 1883 and 1882	97-98
Buckwheat, acres and bushels of for 1883	23-24
Butter, pounds of for 1883 and 1882	39-40

C.

Cabbage, acres of for 1883 and 1882	35-36
Cabinet shops and factories in 1883	152
Capital invested in manufacturing establishments	199
Capital invested in coal mining, 1883 and 1882	362
Carriage manufactories and shops in 1883	162-163
Cattle, number of by ages, for 1883 and 1882	52-54
Cattle, number of died in 1883	52-54
Cattle slaughtered for food in 1883 and 1882	59-60
Castor beans, acres of for 1883	31
Catholic church, statistics of for 1883	304
Cement, barrels of made in 1883	175-176
Chattel mortgages for 1883	109-111
Cheese, pounds of made in 1883 and 1882	39-40
Cherries, gallons of dried and preserved, 1883 and 1882	43-45
Cherry trees, number of bearing and non-bearing, 1883 and 1882	71-72
Chickens, dozens of sold and used in 1883 and 1882	64-66
Christians, statistics concerning	305
Christians (New Lights), statistics concerning	305
Christian Union, statistics concerning	305
Church statistics, organizations and denominations, by counties, in 1883	270-303
Church edifices, number of, by counties	270-303
Church membership, by counties	270-303
Church property, value of, by counties	270-303
Church contributions, missionary and charitable	270-303
